

**ARTICULATION AGREEMENT**  
**Between**  
**UNIVERSITY OF INDIANAPOLIS**  
**And**  
**VINCENNES UNIVERSITY**  
**For the transfer of the**  
**VINCENNES UNIVERSITY SUPPLY CHAIN LOGISTICS MANAGEMENT (A.S.)**  
**Into the**  
**UNIVERSITY OF INDIANAPOLIS**  
**OPERATIONS AND SUPPLY CHAIN MANAGEMENT (B.S.)**

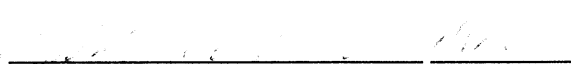

The purpose of this Articulation Agreement is to provide a framework for the effective transfer of Vincennes University (VU) Supply Chain Logistics Management (A.S.) students to continue their professional education in the Operations and Supply Chain Management (B.S.) at the University of Indianapolis (UIndy).

To ensure the smooth transition to the proposed baccalaureate program at UIndy, the faculty of both institutions have developed the attached listing of course equivalencies approved for transfer for students beginning their programs at either institution fall 2008. This listing has been identified as Part I of the Agreement. Part I identifies each course in the VU curriculum and how it will appear on the student's official UIndy transcript upon completion of the transfer. Part II lists the additional courses that VU graduates from the A.S. in Supply Chain Logistics Management would need to take either at VU prior to transferring to UIndy as "rising juniors" in fall 2010 or would need to take after arriving at UIndy which could delay the degree beyond the planned 2 + 2 years. Part III lists remaining courses to be taken at UIndy. In order to benefit from this 2 + 2 program agreement, VU students must complete the A.S. degree with a sufficient grade-point to be accepted into the UIndy program. To ensure consistency and accuracy, these documents must be periodically reviewed by representatives from both institutions to communicate and update information regarding curriculum and textbooks. In addition, only courses with a grade of "C-" or above (C or above in ENGL 101) will be transferred and credited toward the baccalaureate degree. (See UIndy transfer policy on page 2.)

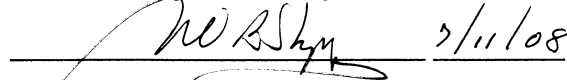

All coursework taken prior to fall 2008 will be evaluated by UIndy program faculty in order to determine transferability of the coursework. This Articulation Agreement, including modifications, may be reviewed by either institution upon request. Further, it is expected that both institutions will keep the other party aware of all curriculum changes as they occur. **While both parties to the agreement understand its purpose is to maximize transfer opportunities for students, they also recognize that limits may be placed on courses accepted under the provisions of this agreement should the student subsequently decide to change to another program not covered by the agreement.**

**The transfer policies of the University of Indianapolis are as follows.**

1. Credit earned through courses taken at other regionally accredited colleges or universities is transferable to the University of Indianapolis. Courses are individually evaluated, and normally a course is accepted if a grade of C- or better has been earned and if the course is applicable to a program of study offered at the University of Indianapolis. (The following exceptions should be noted: Basic writing and English composition are transferable only if a grade of C or above has been earned. In addition, some academic programs require C or above grades in all major courses. Any course with a grade below a C would not be transferable into these programs.)

2. Transfer credit is awarded only for courses that have traditional letter grades (e.g., A, B, C) or have grades or scores that are certified on the transcript as representing a grade of C- or above.

3. No transfer credit is granted for credit that another college or university has awarded for placement or proficiency examinations or for self-acquired competencies.

4. No official evaluation of transfer credit will be made until the student has applied, but the registrar or key advisors will discuss general issues of transfer credit with any student or prospective student.

5. The key advisor or program director in each academic unit evaluates transfer work in cooperation with the deans and chairs. Credit awarded in transfer for one program may not apply to another program; therefore, the transfer work will be reevaluated if the student changes majors.

6. Transfer credit appears on a student's academic record, and the hours are included in the student's earned hours. Grades are not transferable and will not appear on the student's record or be calculated into the grade point average.

<sup>1</sup> SCM 210 is a survey course that appears to contain material from PRDM 100, 214, 215, and 284 but is taught with a more quantitative emphasis than any of these courses.

<sup>2</sup> UIndy has courses at the 300 and 400 levels with similar names but more in depth coverage and with considerably more quantitative emphasis and a statistics prerequisite that the VU courses do not have. Elective credit can be given but that these courses not replace the 300 and 400 level UIndy courses.

<sup>3</sup> Intermediate Algebra is insufficient for a student to be successful in junior level SCM courses and other business courses at UIndy. At minimum, students transferring to the UIndy supply chain program should have Finite Math (MATH 111) and Business Statistics (MGMT 265). Students would be better prepared with two semesters of Calculus with Analytic Geometry (MATH 118 and 119) and Business Statistics (MGMT 265).
